# Bug-In Recipes

## *A Preparedness Community Crowd-Sourced Project*

Community is powerful! When others can come together, they can accomplish really great things. History is filled with such times when regular people came together for the good of others. The Preparedness Community is filled with these types of people.

And although the curation of this recipe book doesn't mark a huge sacrifice of a generation, it was put together during a very uncertain time in the history of the world.

As the threat of the Coronavirus started to knock on the doors of countries other than China, the thought of many preppers would turn to the possibility of bugging-in. This has been realized to some degree in all parts of the world.

But this world is in a different place than it was during the last pandemic. With processed foods and Just-In-Time delivery systems, many people don't stock food in their pantries, much less know how to cook it.

It was my desire to create a book of easy to make recipes that preppers, but also non-preppers, could use to come up with ideas if they had to hunker down.

This recipe book/ cookbook is crowd-sourced. This means that many people in the Preparedness Community contributed recipes. In this first edition, there are 45 recipes.

The mechanism for contributing to further editions will stay in place and as more recipes are provided, they will be added to this cookbook. If you would like to contribute a recipe, please [CLICK HERE](#) for instructions.

This recipe book/ cookbook is offered free. At no point should anyone require anything to download it. If you find a copy that is not downloadable, you can [visit this LINK to download a free copy](#). With that said, please feel free to send this PDF to anyone who might value the recipes within.

The recipe book won't win any awards for formatting and style, but it was put together with a heart to serve and see others get better prepared.

**Recipe Name:** Not Your Mama's Tuna Casserole

**Ingredients:**

- 1 package dried pasta; typically a pound or 4 cups of dry rice, cooked (about 8 cups cooked)
- 1 can of tuna or canned chicken; can be doubled
- 1 can condensed cream soup; mushroom or chicken; can be doubled
- 1 cup cheddar or other type of cheese; rehydrated freeze dried cheese okay
- Breadcrumbs or cracker crumbs, depending on what you have
- Odd and ends from your refrigerator or pantry

**Preparation:**

- Cook the pasta or rice. The exact amount does not matter. I happen to like whole wheat spaghetti so that is what I use. I have made this casserole using less than a full package of pasta and more than a full package. I have also used cooked rice and canned beans. This recipe allows for flexibility to use whatever you happen to have on hand.
- Spray a 9 x 13 baking pan, 12" cast iron skillet or your Dutch oven with cooking spray or rub with some other fat.
- Preheat your cooking source to about 350 degrees. If using a grill or open fire, get it hot.
- Combine all ingredients, holding back half of the cheese.
- Add your dibs and dabs of leftover veggies, additional cheeses, meats or what-have-you.
- Mix well then pour into your pan.
- Sprinkle the remaining cheese plus the breadcrumbs over the top.
- Bake for about 25 minutes until bubbly.

**Number of Servings:** 8 to 12 people, depending on how hungry they are

## **Recipe Name:** Dumplings

### **Ingredients:**

- 1 ½ Cups regular flour
- ¼ cup of dried milk (approx.)
- 2 teaspoons of baking powder
- ¾ teaspoons of salt
- 3 tablespoons soft butter (I don't measure, I scoop a chunk out of the butter dish)
- ¾ cup of water

### **Preparation:**

- Measure dry ingredients.
- Cut in the butter with a utensil (I use my hand) till it looks like meal, or till it appears blended.
- Stir in water.
- I heat gravy that I made using bouillon, about 4 cups of water and some extra herbs if needed. I thicken the gravy by mixing approx 2 tablespoons of flour in about a ½ cup of water put in a jar and shake it well until it's blended. Add to the gravy that is boiling on medium heat. Stir/whisk it till it thickens. If it is a bit thin, don't worry about it, it is better that way, cause once you add the dumplings to cook they will absorb a lot of the liquid.
- Dip your metal tablespoon into the bubbling gravy and scoop out some of the dumpling dough, slightly larger than the size of a golf ball, and put it in the gravy. Keep going till all the dough has been used up and hopefully the large 10 inch cast iron fry pan will be filled.
- Lower the temperature to medium/low and set the timer for 10 minutes.
- When the timer goes off, cover the fry pan and the dumplings and set the timer for another ten minutes. NO PEEKING! Peeking will cause the dumplings to drop!
- The dumplings can be served with most any type of meat. I often use boneless skinless chicken thighs and I dice the meat, brown it slightly in a separate fry pan with oil or chicken fat and onions. After slightly browned I added diced vegetables and cover to cook about 10 to 15 min. Sometimes I serve the dumplings with sliced beef sausage.

**Notes:** Pioneer hint to avoid “gas” when eating beans - A lady at “Pioneer Days” offered us a bowl of brown beans being cooked in a huge pot over an open fire. We started to decline due to the possible “gas” problem. She told us that pioneers often peeled a white potato and cooked it with the brown beans. The “gas” is absorbed into the potato. Then she said “*Just don’t eat the potato!*” We tried it—It works.

- 2 tablespoons oil
- 3 potatoes, peeled and diced
- Onion, peeled and diced or sliced

### **Preparation:**

- Combine dry ingredients.
- Add egg and milk.
- Knead till smooth.
- Add flour if dough is sticky or add more milk if dough is too dry and crumbly.
- Make long cords about the circumference of a dime.
- Slice or cut with scissors, about ¼ to ½ inches in thickness.
- Dust with flour as you go along.
- Have a large kettle of water to boiling, add about a heaping teaspoon of beef or chicken bouillon.
- Add Knefla.
- Boil on medium heat for approximately 15 to 20 minutes.
- While the Knefla is cooking prepare the potatoes, place in the fry pan, add onion and a bit of bouillon to match along with some water (enough to barely cover).
- Cook till potatoes are tender. I sometimes add beef sausage and a favorite vegetable or two. A simple gravy can be made at this point, using some of the liquid the Knefla was cooked in and adding water and flour and bringing that to a boil so the flour cooks. If the flour doesn't cook it will have a raw taste.
- I use a slotted spoon to remove the cooked Knefla.
- Add the Knefla to fry pan, stir and serve.

**Number of Servings:** This serves between six and eight people

## **Recipe Name:** Tortillas

### **Ingredients:**

- 3 cups of flour
- 2 teaspoons baking powder
- 1 teaspoon salt
- 1/3 cup of softened butter
- 8 ounces of hot water (I boil the water & cool slightly before adding)

### **Preparation:**

- Combine the dry ingredients.
- Add the butter and cut it in.
- Add the hot water.
- Mix. Knead about ten minutes.
- Cover with a moist towel and let rest for 10 to 15 minutes.
- Divide into 12 balls, and cover with damp cloth. Roll as thin as possible. Do not use much flour when rolling as excess flour makes the tortilla tough and it wants to spring back. Doing about 3 tortillas at a time, after rolling three out, hang the tortilla over the edge of the bowl and go to the fry pan.
- I use a cast iron fry pan.
- Heat on medium burner. Do not add any oil.
- Drop the tortilla onto the hot fry pan. When bubbles start to form, turn the tortilla.
- Estimated time is about 1-2 minutes on each side. Tortillas can be turned several times.

I store mine covered in a casserole dish on the counter, so they don't get tough like storing in the frig.

Tortillas are a good bread substitute when you can't get to the store or when you can only cook in the fry pan.

**Recipe Name:** Sauerkraut

This isn't fast food, but shelf-stable food for later.

**Ingredients:**

- 5 lbs of fresh cabbage (2 to 3 heads, depending on size)
- 3 tablespoons sea salt

**Preparation:**

- Core and chop cabbage into thin strips
- Place shreds into a 3 gallon plastic (or ceramic, no aluminum) bucket.
- Sprinkle some of the salt in as you add shreds to help the salt get mixed in.
- Stir the salty shred a few times to ensure the salt is distributed.
- Press the shreds down firmly to squeeze out excess air.
  - (a ceramic dinner plate that fits in your bucket is good)
- When the shreds don't press down any further, place a weight on the plate.
  - (a plastic milk jug full of water works well)
- Cover loosely and set in a moderately warm place for two weeks.
- During the two weeks, the salt pulls out the natural water in the cabbage. The resulting brine encourages lacto-fermentation and inhibits the bad bacteria.
  - You may see foam around the edges of the plate. That's good
  - Scoop off any spots of mold form on the foam or any bits not in the brine.
- After two or three weeks, firmly press sauerkraut into clean jars pint jars.
- Add leftover brine to cover. Screw on lids.
- Can keep in a root cellar for over a year.

**Number of Servings:** Makes roughly 10 pints

**Recipe Name:** Westerns

This is an old family recipe and measurements are less than exact. I was later told it was a depression era recipe.

**Ingredients:**

- 4 large potatoes cooked and chopped into bite sized pieces (aka left overs. If you are cooking them for this let them cool so they are easier to handle and won't disintegrate)
- ¼ lb ham (ie fist sized) spam can be substituted. Diced
- Oil (enough to grease pan)
- Salt & pepper
- Optional Ingredients:
  - Cheese (grated)
  - Ketchup
  - Peas
  - Onion, diced

**Preparation:**

- Heat a skillet (fry pan) up and add the oil.
- If adding onions fry up the onions. They can stay in the pan for the next stage
- Cook the potatoes until golden and warm.
- Add the ham and continue heating until warm. If you have peas, throw them in.
- Serve
- Salt & Pepper to taste. If you have cheese add a sprinkle on top. It will melt in. You can also add some Ketchup at this stage as well.

When substituting spam for the ham it works better if you fry the spam first the ham just needs heating up.

**Recipe Name:** Armenian Rice / Rice Orzo

A simple rice recipe.

**Ingredients:**

- ½ cup orzo
- 6 Tbsp. butter or oil plus
- One onion, chopped
- One cup white rice
- 2½ cups chicken broth (water will do in a pinch)

**Preparation:**

- Brown orzo in 4 Tbsp. butter/oil. Add onions if desired.
- Add one cup white rice.
- Add liquid and cook until liquid is absorbed. (In a cover pan, this should be about 15 minutes)
- Add remaining butter/oil and keep covered until ready to serve.

This recipe is flexible. I will often use brown rice instead of white rice. (The amount of liquid and cooking time need to be adjusted accordingly.) I will also omit adding the butter/oil at the end.
